Client & Consultant Coordination

- Client presentations and approvals
- Contractor coordination
- MEP consultant coordination
- International supplier management
- Stakeholder communication

PROFILE

Senior Interior Designer / Design Manager with 9+ years' experience delivering high-end private residential interiors across the UK, Europe and the Middle East, with project budgets from £800k to £12m.

Experienced across the full project lifecycle, from brief, concept development and design direction through FF&E specification, finishes strategy, bespoke joinery coordination, procurement, site delivery, snagging and handover. Combines a strong design eye with practical delivery experience, commercial awareness and the ability to protect design intent through complex procurement and construction stages.

Trusted senior client-facing lead, confident in presenting design options, guiding approvals, coordinating architects, MEP consultants, contractors and specialist suppliers, and resolving site issues quickly and commercially. Particularly strong in luxury private residential projects, bespoke detailing, international supplier coordination and high-quality project delivery.

WORK EXPERIENCE

Senior Interior Designer / Design Manager — Dragonwyck Ltd

Jan 2022 – Present

Official company title: Managing Director

Lead high-end private residential interiors within a boutique client-side environment, managing 1–3 live projects concurrently, including new-build homes and premium fit-outs with budgets up to £5m. Responsible for maintaining design intent, programme discipline, budget awareness and delivery quality from concept development through procurement, site coordination, installation, snagging and handover. Responsible for maintaining design intent, programme discipline, budget awareness and delivery quality across live projects.

Key Responsibilities & Achievements

- Manage projects from brief, concept direction and design development through FF&E, finishes, procurement, site coordination, snagging and handover.
- Act as the main client-facing contact, presenting design options, guiding approvals and maintaining clear communication with clients, consultants and stakeholders.
- Develop concept imagery, sketches, moodboards, FF&E schedules, finishes specifications and material palettes aligned with the client brief, budget and design intent.
- Design and coordinate bespoke joinery elements, furniture, lighting, stone, finishes and soft furnishings, ensuring selections are buildable, deliverable and visually consistent.
- Manage procurement, supplier benchmarking, quotations, negotiations, lead times, substitutions and value engineering across key project categories.
- Review joinery drawings, samples and supplier submissions, providing clear comments to protect design intent and reduce the risk of costly site issues.
- Coordinate contractors, consultants and specialist suppliers during installation, resolving defects and site queries while maintaining quality and programme.
- Maintain regular site presence, including daily visits during final installation stages when required, to monitor progress, support snagging and achieve a high-quality handover.

EXPERIENCE CONTINUED

Design Manager / Interior Designer — Veyron Property Ltd

Nov 2016 – Dec 2021

Delivered high-end residential interiors for private clients across new-build and refurbishment projects, with budgets up to £12m. Worked across design development, FF&E, finishes, procurement, supplier coordination, contractor liaison, site support and handover.

Key Responsibilities & Achievements

- Managed multiple residential projects simultaneously through design development, procurement and delivery phases.
- Led design presentations and approvals, developing concepts and maintaining consistent project direction through to completion.
- Produced and managed FF&E schedules, finishes specifications and procurement documentation aligned with programme and buildability requirements.
- Coordinated suppliers, subcontractors and specialist manufacturers throughout procurement and installation stages.
- Negotiated commercial terms and achieved substantial supplier savings through benchmarking and relationship management.
- Maintained regular site involvement to coordinate installations, resolve issues and support successful project delivery.
- Worked closely with contractors, consultants and MEP teams to resolve technical constraints while protecting design intent.

Freelance Graphic Designer / Artworker

Jun 2011 – Sep 2016

Delivered print-ready artwork, brand collateral and visual communication projects for international brands, developing strong presentation, layout, production and quality-control skills before transitioning into interior design.

Key Responsibilities & Achievements

- Produced high-quality print-ready artwork and marketing collateral under strict deadlines and brand guidelines.
- Coordinated with designers, print suppliers and production teams to ensure technical accuracy and quality control.
- Delivered brochures, menus, POS graphics and customer-facing materials for premium hospitality and automotive brands.
- Developed strong visual communication, layout and presentation skills that later informed transition into interior design.
